4. How long have you known the applicant and under what circumstances have you become familiar with the applicant's academic abilities?

Text Response	
Beomseok is a PhD student in my department. Since last semester, he has been conducting thesis research with me. I have guided him on a machine learning project on robust clustering and stability analysis of clustering. He is also taking a Statistical Learning and Data Mining graduate level course this semester.

5. Please assess the applicant's ability to contribute to the Data Science for the Public Good Fellowship Program.

Text Response	
I believe Beomseok is well capable to contribute to the Data Science for the Public Good Fellowship program. While working with me, he has been quite devoted and is eager to publish papers. Although he hasn't been working with me for long, we are already preparing a manuscript on clustering analysis. He is very sincere about his work and updates his progress in report every week. I find it relatively easy to supervise his thesis research.

6. How would you describe the applicant's motivation and initiative in pursuing his/her academic and career goals?

Text Response

He is highly motivated. He is also a modest person always ready to receive criticism and to improve.
