September 21, 2017

Dear Colleagues,

I am writing to confirm Ms. Arnsbarger will be traveling to Chicago to participate in the Data Science for the Social Good conference September 28-29. She will be representing Virginia Tech as an ambassador of our highly successful Data Science for the Public Good Program (<https://vtnews.vt.edu/articles/2017/09/bi-governmentbigdatacollab.html>). Ms. Arnsbarger will be presenting a research poster she completed during the Data Science for the Public Good program this summer. She was also elected for a student travel grant by the conference organizing committee.

Sincerely,

A handwritten signature in black ink, appearing to read 'Gizem Korkmaz'.

Gizem Korkmaz

Data Science for the Public Good Director

Assistant Research Professor
