To: Thurston, Joel (jt9sz) <jt9sz@virginia.edu>

Dear Mr. Thurston,

I am writing this letter to recommend Kristian Olsson to the Data Science for the Public Good (DSPG) Internship. I have had the pleasure of working closely with Kristian both as his mentor and during his internship at Boss Capital Partners, where I am a co-founder.

During that time, Kristian displayed unrelenting passion in overcoming challenges by using his leadership skills to grow and spread positivity to those around him. His ability to leverage a data-driven analytical approach combined with his strong communication skills allowed Kristian to excel in his project deliverables.

His drive to improve himself and those around him by continuing his education and taking on new challenges is exceptional. His strong work ethic has been proven by his desire to perfect tasks and improve the quality of his performance. Kristian is a team player with incredible communication skills and a selfless attitude. I'm confident that Mr. Olsson will utilize his unique attributes to expand upon his current knowledge and pursue this opportunity with the same consistent drive he continuously displays.

Feel free to contact me for more information or specific examples, as I would gladly further elaborate on my time and experience working with Kristian.

Best Regards,

Randall
