Overview: Please join us for this summer's Data Science for the Public Good (DSPG) Symposium where our DSPG students and fellows will present their research projects. This symposium will highlight how the DSPG program equips new generations of scientists with the skills they need to develop data-driven policy and decision-making.

The DSPG program focuses at the interface of data analytics and social science to address real problems at the local, state, and federal levels of government. The Symposium will include two keynote speakers followed by a poster session and networking reception.

Keynote Speakers:

- Nancy Potok, Chief Statistician of the United States, Office of Management and Budget
- David Yokum, Director, The Lab @ DC, Executive Office of the Mayor
