### Overview:

Please join us for this summer's Data Science for the Public Good (DSPG) Symposium where our DSPG students and fellows will present their research projects. This symposium will highlight how the DSPG program equips new generations of scientists with the skills they need to develop data-driven policy and decision-making.

The DSPG program focuses at the interface of data analytics and social science to address real problems at the local, state, and federal levels of government. The Symposium will include two keynote speakers followed by a poster session and networking reception.

### Keynote Speakers:

- **Catherine Woteki** | Former Undersecretary for Research, Education and Economics and Chief Scientist, U.S. Department of Agriculture
- **Wayne Strickland** | Executive Director, Roanoke Valley-Alleghany Regional Commission
