4. How long have you known the applicant and under what circumstances have you become familiar with the applicant's academic abilities?

Text Response
I have been familiar with Kazi since August 2017, when he applied for a job as research assistant. He began work for me in September at 20 hours a week and will continue through May 2018. Kazi is responsible for developing a database of all federal financial assistance programs that allocate funds geographically on the basis of data collected through the Decennial Census. This has required him to delve into the details of hundreds of federal grant programs, understand how each uses data to allocate funds, and be able to trace those data back to the Decennial Census.

5. Please assess the applicant's ability to contribute to the Data Science for the Public Good Fellowship Program.

Text Response
I believe that Kazi would be a very valuable contributor to the Data Science for the Public Good Fellowship Program. Kazi is highly motivated to address public policy issues, well-organized, thorough, and inquisitive. He wants to understand how things work and persists until he gets it.
